

WHY IT IS IMPORTANT TO PLANT TREES

- ◆ Trees clean carbon dioxide from our air
- ◆ Trees absorb rain through their leaf and root systems
- ◆ Trees provide constant filtration of air and water pollution
- ◆ Trees provide wind abatement, screening & increased security
- ◆ Shade trees significantly reduce utility bills
- ◆ Trees assist with soil erosion and help to prevent flooding
- ◆ Healthy trees add measurably to property values
- ◆ Trees support diverse wildlife ecosystems
- ◆ Trees possess commemorative and historical value
- ◆ Trees bring beauty to our lives and our town
